9:00 AM - 1:00 PM Thursday, January 25,
followed by 8 weeks of online coursework.

\$150 by December 31
\$200 after December 31

Expand your skills and elevate your expertise with the IMRA Certification. Developed by San Diego County Office of Education for K-12 school library staff, the IMRA course is one of the few professional learning opportunities for library technicians and classified staff members.

The IMRA course will examine:

- The role of school library staff
- Model School Library Standards
- Digital citizenship
- Information literacy
- Collection management
- Promoting the library media center
- Technology tools
- Equity in the school library

IMRA graduates are saying...

“This course has given me the wings to set my standards and goals higher, concisely and productively with confidence. I honestly have never felt so empowered professionally.”

“I feel like a different person than my pre-IMRA self. It's like getting my first pair of glasses; it never occurred to me that I couldn't see, until I could.”

Librarian Power Hour

The Librarian Power Hour on Sunday will be spent putting all that you have learned during the conference into actionable plans. Using your planner, you will set goals and create reminders about when to start projects, forecast when reports/notices need to be run, schedule special events, promotions, or communications you will create and send, create lists of titles that need to be purchased, CYRM dates, displays that need to be updated, and more. This is a chance for you to share what you are going to do when you get back to school.
